

## News Release

### **AGL Resources' Jefferson Island Storage Accepting Binding Bids for 1 Bcf Firm Capacity**

HOUSTON, Nov. 12, 2007 – AGL Resources' (NYSE: ATG) Jefferson Island Storage & Hub (JISH) facility will be accepting binding bids November 12-23, 2007 for up to one billion cubic feet (Bcf) of firm storage. The capacity will be available starting April 1, 2008.

Located near the Henry Hub, JISH consists of two salt dome storage caverns with 7.2 Bcf of working gas capacity, 720,000 MMBtu/day withdrawal capacity and 360,000 MMBtu/day injection capacity.

JISH, an intrastate facility, currently provides storage and hub services through direct connection to the Henry Hub via Sabine Pipeline and seven other pipelines: Texas Gas Transmission, Columbia Gulf Transmission, Sea Robin Pipeline, Tennessee Gas Pipeline, Gulf South Pipeline, NGPL and CrossTex Energy Pipeline. JISH will offer a new interconnection with Trunkline in first quarter 2008 and is in the process of soliciting customer interest for a new interconnect with Southern Natural Gas (SONAT).

The facility's header system enables natural gas flow optimization. All of JISH's interconnections have design capacities of at least 200,000 MMBtu/day and all but one is bi-directional for easy injection and convenient withdrawal capability. JISH also provides compression and 15 miles of dual 16-inch pipelines that provide interchange capabilities for the facility's eight large-capacity interconnections.

Prospective customers should contact Laura McGuire Heckman at (832) 397-8503 or Ed Gottlob at (832) 397-1798. Additional information, including bid procedures and a bid form, is available at [www.aglr.com/about/investments.aspx](http://www.aglr.com/about/investments.aspx).

#### **About AGL Resources**

AGL Resources (NYSE: ATG), an Atlanta-based energy services company, serves more than 2.2 million customers in six states. The company also owns Houston-based Sequent Energy Management, an asset manager serving natural gas wholesale customers throughout the nation. As a 70 percent owner in the SouthStar partnership, AGL Resources markets natural gas to consumers in Georgia under the Georgia Natural Gas brand. AGL Resources owns and operates Jefferson Island Storage & Hub, a high-deliverability natural gas storage facility near the Henry Hub in Louisiana, and is developing Golden Triangle Storage, another salt dome storage facility near Beaumont, Texas.
